

EXTRAORDINARY COMMUNICATION

In compliance with its obligation to provide notification of extraordinary events under Section 55 of Act CXX of 2001 on the Capital Market, and Section 1.6 of Annex 4 of Decree No. 24/2008 (VIII. 15.) of the Minister of Finance, **ALTEO Energiaszolgáltató Nyilvánosan Működő Részvénytársaság** (registered office: H-1131 Budapest, Babér u. 1-5; company registration number: Cg.01-10-045985; hereinafter: “**ALTEO**”) hereby provides the following information:

In the future, ALTEO intends to provide a larger volume of scheduling and production management services to its partners on a commercial basis through its subsidiary, Sinergy Energiakereskedő Korlátolt Felelősségű Társaság (registered office: H-1131 Budapest, Babér utca 1-5.; company registration number: Cg. 01-09-178667; hereinafter: “**Sinergy**”).

With years of relevant experience in power plant operation and production management, 32 renewable-energy (solar, wind, hydro, biogas and landfill gas) plants with KÁT rights owned or operated by the ALTEO Group, and its own Control Center consisting of 8 natural gas power plants, 3 wind turbines and an electricity storage facility, as well as its AI-based solutions, it has all the assets and competence it needed to become a key market player in Hungary and for becoming one of the major aggregators in the country in the future.

Building on this experience, Sinergy offers a simple arrangement for a fixed fee and provides weather-dependent electricity producers holding KÁT rights or being removed from KÁT with services that grants them complete exemption from the surcharge payment obligation resulting from scheduling. Sinergy also provides other associated business management and administrative services (e.g. reporting to authorities, administration for system operators). In addition to competitive and predictable monthly fees, no other security or deposit is required from partners.

With its risk-free production management service, Sinergy also offers solutions to power plants in the test run phase as well as to producers with premium rights (METÁR), in addition to producers with KÁT rights. Producers with well-controlled capacities are also welcome to join the Sinergy Control Center under arrangements with guaranteed results.
